

CERTIFICATION

**Description of the FABER-CASTELL Marker Multimark non-permanent
(Ref. No. 1514../ 1524../ 1526..) and a Certification of the Safety**

The plastic materials of the barrel, cap, wick and nib are polypropylene, polyester and polyacetal (POM). The inks are water-based (non-permanent).

The Multimark pens are consumer goods and not dangerous products or chemicals. Therefore a Safety Data Sheet or a Product Information Sheet isn't necessary under the existing regulations of the EU.

Faber-Castell takes heed of all laws and regulations during the production of products and for products.
