

SINOX[®]

PORTABLE EMERGENCY RADIO

DYNAMO AND SOLAR RADIO

This portable dynamo and solar emergency radio with USB, Micro SD, wireless, and power bank functionality is the ideal device to stay connected to the world at all times. It offers a wide range of features and capabilities that can be useful in various situations, both outdoors and at home.

The radio is equipped with a tuner for FM, AM, and SW bands, ensuring you never miss your favorite radio stations. Thanks to its sensitivity and tuning precision, you will enjoy clear and crisp sound. If you prefer not to listen to the radio, you can use it to play music from a USB stick, Micro SD card, or via a wireless connection.

For added safety, the Sinox emergency radio also includes an acoustic and visual emergency alarm. Additionally, the high-intensity LED flashlight, which can be adjusted to two brightness levels, will be useful in any situation. The built-in power bank function allows you to charge external devices when needed.

The portable dynamo and solar radio from Sinox is compact, lightweight, and wireless – perfect for any situation. With a built-in lithium battery that can be charged via hand-crank dynamo, solar panel, or USB-C, you never have to worry about running out of power.
